

Real World Testing Plan for 2025

General Information

Developer Name	Marquis Software Development, Inc.
Product Name(s)	eOMIS Healthcare Management®
Version Number(s)	2015.1
Certified Health IT:	2015 Edition Cures Update
Certified Health IT Product List (CHPL) ID(s)	15.04.04.2791.eOMI.15.00.1.180319
Developer Real World Testing Plan Page URL	https://www.marquisware.com/eomis/onc-cost-and-limitations-2015/

Justification for Real World Testing Approach

This is the 2025 Real World Test Plan (RWT) for Marquis Software and its Electronic Health Records (EHR) System, eOMIS®. Marquis Software markets its eOMIS® product to state, federal and county correctional facilities providing medical care to inmates. The RWT plan is intended to verify the software's functionality of the Electronic Health Information Export criteria §170.315(b)(10).

Care Setting

The care settings for RWT are correctional facilities providing medical care to inmates.

Standards Updates (SVAP and USCDI)

Not applicable

Description of Measurement/Metric

Rate of Export – Individuals	Marquis Software will track the number of CCDAs requested for individual patients and exported from eOMIS during the year
Rate of Export – Full Population	Marquis Software will track the number of CCDAs exported from eOMIS during the year for full population for transfer to another EHR.

Associated Certification Criteria

Rate of export – Individual	§170.315(b)(10)(i)(A)	No relied upon software
Rate of export – Full Population	§170.315(b)(10)(ii)	No relied upon software

Justification for Selected Measurement/Metric

Rate of export – Individual	eOMIS generates a compliant CCDA file requested by the end user. Tracking the rate of export will be an indication on how often the functionality is utilized. Total number of CCDA individual charts requested / Total number of population
Rate of export – Full Population	eOMIS generates compliant CCDA files for the entire population when a customer transfers EHR vendors. Tracking the rate of export will be an indication on how effective the functionality is. Total number of CCDA individual charts generated / Total number of population

Expected Outcomes

Rate of export – Individual	Marquis expects the outcome to be over 50% of the total patient population
Rate of export – Full Population	Marquis expects the outcome to be 100% of successful CCDA generating and exporting

Schedule of Key Milestones

Begin collecting test data for EHI exports	1/1/2025
Submit RWT Plan for 2026	10/31/2025
Stop collecting test data for EHI exports	12/31/2025
Analyze and create data report	1/31/2026
Submit RWT results for 2025	2/1/2026

Attestation

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the health IT developer's Real World Testing requirements.
